THE SAM CARPENTER GARDENS
RARE AND CHOICE IRISES AND PEONIES
OSWEGO, KANSAS.

Special half price offer during March and April.

Our Iris Gardens comprise five acres, containing 200 beds 300 feet long, thus we have more than eleven miles of irises in almost a thousand varieties.

Some of these irises not only rival, but surpass the rarest orchids in beauty, and we want you to get acquainted with them.

In case you are not familiar with the names, and cannot make your selection from the gardens when in bloom (which of course is the best way) if you will tell us how many varieties you want, and how many plants of each, and will leave the selection to us, we believe in most instances we can send you a more desirable collection than any you could make from catalog descriptions, as we would send only those that had proven most desirable at the price.

If your preference is for certain colors and shades, we can, if requested, fill the order with such.

We can make up collections in this way for any amount from \$5.00 up, and will send you at least double value, at catalog or list prices.

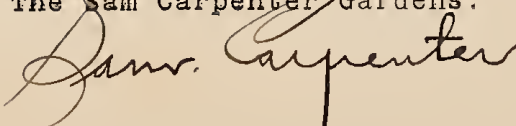

If you prefer to make your own selection, send us a list of \$200.00 worth from our price list, and we will send you \$100.00 worth of these for \$50.00, or send us a list of \$100.00 worth, and we will send at least \$50.00 worth of those selected, and then enough of equally desirable varieties of our selection to make \$100.00 worth for \$50.00

If you want some cheap irises for landscape effect, we find the Longfield Seedlings, grown by E.B. Williamson the great iris specialist of Bluffton, Ind., most satisfactory, and can send you 100 plants for \$5.00

These are unnamed and mixed, but most of them are beautiful, and you may find some real gems among them.

Yours faithfully,

The Sam Carpenter Gardens.

A handwritten signature in cursive script that reads "Sam Carpenter". The signature is written in dark ink and is positioned below the printed name "The Sam Carpenter Gardens."
